

(TEPIT) Contract No: W15QKN-15-D-0077

Points of Contact:

Contracts Officer: Phoebe Stelle

Business Development: Julian Baena

Recognized as DoD's foremost provider of network lethality tactical fire control solutions, emergency management, force protection, interactive technologies and training for armament systems to equip, modernize and sustain the Joint Forces. Tactical Effects, Protection, and Interactive Technologies Directorate (TEPITD) is the Army's lead for technical and programmatic life cycle engineering (research, development, sustainment and field support) efforts for network lethality tactical fire control systems for fires and effects based operations via distributed, common network architecture; threat awareness systems for installation emergency management and response; and interactive and multi-media technologies, virtual prototyping and training for armament systems. The applicable NAICS for this effort is: 541330 quote mark Engineering Services quote mark. The total maximum ceiling value of all contracts awarded is \$49,778,189.00.

Assigned mission includes:

- Kinetic Threat Defense (e.g. target threat acquisition identification classification tracking and neutralization capabilities)
- Integrated Base Defense
- Anti-terrorism/Force protection systems
- Decision-support
- Sensor-to-shooter
- Sensor-to-decider
- Small unit manned/Unmanned effects teaming
- Intelligent control and collaboration technologies
- Armaments virtual prototyping
- Operator & Maintainance
